

OUR OWNERSHIP

MA Billing Solution is privately owned. We focus on the return to the client, not the shareholder. Our team focuses on the needs of our clients, our continual improvement in operations, services levels and overall quality.

We answer to the client, reducing overhead and response time. Our philosophy continues to emphasize a customized, dedicated service level superior to traditional "in-house" billing.

COMPLETE BILLING & MANAGEMENT SERVICES

MA Billing Solution offers complete billing and management services for hospital-based and office-based physician practices.

“It is immediately apparent that one of our greatest strengths has always been the close relationship we form with our practices. Our knowledge, ability, and dedicated follow-up are why MBS has a higher collection rate than the industry average. Your practice will get a higher average return per processed claim and at a faster rate.”
